

WOODEN PALLETS · SPECIFICATION SHEET

Euro Pallet 1200 × 800 mm (EPAL Type)

The European standard, 4-way block pallet used across UAE retail, FMCG and export.

Our 1200 × 800 mm Euro-type pallet follows the EPAL 1 construction: 9 blocks, 11 boards and a chamfered, 4-way forklift entry. Manufactured from kiln-dried pine or spruce in Dubai and optionally ISPM-15 heat-treated for export, it is the most requested pallet size for supermarket distribution, container loading and automated warehouses in the UAE.
