

## WOODEN PALLETS · SPECIFICATION SHEET

### Standard Block Pallet 1200mm x 1000mm

The UK/industrial standard block pallet — the workhorse of UAE warehouses.

The 1200 × 1000 mm pallet (also called the UK, industrial or EPAL 2 size) is the most common footprint in UAE 3PL warehouses, building-material yards and heavy manufacturing. We build it as a 4-way block pallet with a heavier 3-stringer bottom for racking, in standard and reinforced grades. **SIZES & LOAD RATINGS**

| Size L × W × H (mm) | Static load | Dynamic load | Racking load | Weight   | Note             |
|---------------------|-------------|--------------|--------------|----------|------------------|
| 1200 × 1000 × 144   | 4,000 kg    | 1,500 kg     | 1,000 kg     | 25–28 kg | Standard grade   |
| 1200 × 1000 × 162   | 5,000 kg    | 2,000 kg     | 1,250 kg     | 30–33 kg | Reinforce/ heavy |

### TECHNICAL SPECIFICATIONS

|                 |                                           |
|-----------------|-------------------------------------------|
| Entry           | 4-way block or 2-way stringer             |
| Top deck boards | 7 boards, 22 mm                           |
| Bottom boards   | 3 boards, 22 mm (perimeter base optional) |
| Blocks          | 9 × (145 × 145 × 78 mm)                   |
| Wood species    | Kiln-dried pine; hardwood blocks optional |
| Treatment       | ISPM-15 HT optional                       |
| Branding        | SHAYAY heat-brand stamp                   |

### KEY FEATURES

- Larger deck for cartons and drums
- Perimeter-base option for drive-in racks
- Reinforced grade to 2,000 kg dynamic
- Heat treatment available for export
